### Profile

---

I am a highly motivated and detail-oriented software developer specializing in front-end development. With a strong foundation in HTML, CSS, Sass, JavaScript, Tailwind CSS, and React, I create dynamic, responsive, and user-friendly web applications. I am passionate about delivering high-quality code and engaging user experiences while continuously learning and adapting to new technologies. My expertise lies in building scalable solutions that meet both user needs and business objectives, with a focus on clean, maintainable, and efficient design.

### Skills

---

#### HTML

Proficient in writing semantic and well-structured HTML for building accessible and SEO-friendly websites.

#### Sass (SCSS)

Skilled in using Sass for advanced CSS authoring, enabling modular, maintainable, and efficient stylesheets.

#### React

Experienced in building dynamic, component-based web applications using React, including hooks and state management.

#### Version Control (Git)

Proficient in using Git for version control, collaborating effectively on projects using GitHub.

#### CSS

Experienced in styling responsive websites using modern CSS techniques, including Flexbox and Grid.

#### JavaScript

Proficient in writing clean, efficient, and maintainable JavaScript, with experience in ES6+ features.

#### Tailwind CSS

Skilled in using Tailwind CSS for rapid UI development and creating responsive, utility-first designs.

### Professional Experience

---

#### Data Anotator

11/2023 – present

#### Freelance & Contract Work | [Shotbykenny]

- Developed scalable, high-performance web applications using React and modern UI frameworks.
- Designed and implemented dynamic user interfaces with Sass and TailwindCSS.
- Integrated third-party APIs and built reusable UI components to optimize development speed.
- Improved website performance and accessibility by implementing best practices in modern frontend development.
- Collaborated with backend developers and UX designers to create seamless user experiences.

## Projects

---

### Legal Case Tracker

01/2024 – 04/2025

- Built a case management dashboard for lawyers and clients using **React & Sass**.
- Implemented real-time messaging and file-sharing functionalities.
- Designed an intuitive and responsive UI for smooth navigation.

### E-Commerce Website

01/2023 – 07/2023

- Developed a fully functional e-commerce platform using **React & Sass**.
- Integrated payment gateways and product filtering systems.
- Enhanced UI with dynamic animations for improved user experience.

### Meal Companion

A web application designed to teach users how to cook, featuring a wide variety of recipes and step-by-step cooking instructions. Built using HTML, CSS, and JavaScript, this project focuses on creating an intuitive user interface with a seamless browsing experience for cooking enthusiasts.

### News Website

- Created an engaging news platform using **React & Sass**.
- Implemented API integrations for real-time updates.

### Learning Management System

- Built an interactive LMS using **React & Sass**, supporting course enrollment, quizzes, and progress tracking.
- Developed role-based authentication for admin, students, and instructors.
- Integrated multimedia learning features for an enhanced experience.

## Education

---

### Higher National Diploma, *The Polytechnic Ibadan*

01/2019 – 12/2021

### Higher National Diploma in Computer Science

Ibadan, Nigeria

The Polytechnic, Ibadan

With a strong foundation in Computer Science, I gained practical and theoretical knowledge in software development, problem-solving, and technology. This academic experience equipped me with the necessary skills to excel in frontend development and fostered my passion for creating innovative web solutions.

### Computer Science, *The polytechnic ibadan*

01/2019 – 12/2021

ibadan, Nigeria

## Certificates

---

- Applied Digital Skills
- Teamwork Foundations
- Communication Foundations (2018)
- Effective Listening
